This week, the children talked about science. We made Fun Fountains and did an experiment that shows water pressure at work.

The children made playdough and learnt how to change the colour of it by adding natural colouring.

On Thursday, the children planted their very own grass and learnt about what the grass seeds need in order to grow.

### Cooking Experiment

How does popcorn pop? On Wednesday, the children did a fun popcorn experiment. We explored how corn kernels pop when exposed to heat. The children enjoyed exploring the texture, colour and taste of corn before and after it has popped.

### Books

We exchange library books every Monday and Friday. On these days, please ensure that your child comes to school with their **Library book and book record** so we can exchange them. Please add any comments your child might have made during the reading.

### Makaton

This week we learnt to sign 'bunny'. The children were excited to use the sign during the storytime.

### We need your help!

If you could kindly donate some tissues and wet wipes to the nursery, that would be much appreciated.

Thank you,

**The Nursery Team**

**Ms Sekanina, Mrs Ryan, Ms Kostova and Ms Paxton**
