- 4.2. The School is registered as a data controller with the Information Commissioner's Office and renews this registration annually.

5. Data Protection Principles

The GDPR is based on the following data protection principles, or rules for good data handling:

- Data shall be processed lawfully, fairly and in a transparent manner in relation to individuals;
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes. Further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- Adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed;
- Accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay;
- Kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes subject to implementation of the appropriate technical and organisational measures required by the GDPR in order to safeguard the rights and freedoms of individuals;

- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

6. Roles and responsibilities

- 6.1. The Governing Body has overall responsibility for ensuring that the School complies with its obligations under the GDPR.
- 6.2. Day-to-day responsibilities rest with the Headteacher. The Headteacher will ensure that all staff are aware of their data protection obligations, and oversee any queries related to the storing or processing of personal data.
- 6.3. Staff are responsible for ensuring that they collect and store any personal data in accordance with this policy. Staff must also inform the school of any changes to their personal data, such as a change of address.
- 6.4. Data breach reporting is mandatory under the GDPR and all staff are aware of their obligation to report data breaches without delay by emailing GDPR@derwentwater.ealing.sch.uk.

- Contact details;
 - Results of internal assessment and externally set tests;
 - Data on student characteristics, such as ethnic group or Special Educational Needs and Disabilities;
 - Exclusion information;
 - Details of any medical conditions.
- 7.1.2. We will only retain the data we collect for as long as is necessary to satisfy the purpose for which it has been collected.

- 7.1.3. We will not share information about students with anyone without consent unless the law and our policies allow us to do so. Individuals who wish to receive a copy of the information that we hold about them/their child should refer to sections 8 and 9 of this Policy.
- 7.1.4. We are required, by law, to pass certain information about students to specified external bodies, such as our Local Authority (London Borough of Ealing) and the Department for Education, so that they can meet their statutory obligations.

8. Subject Access Requests

- 8.1. Under the GDPR, Staff, Students and Parents\Carers have a right to request access to information the school holds about them. This is known as a Subject Access Request.
- 8.2. Subject Access Requests must be submitted in writing, either by letter or email. Requests should include:
- The subjects name;
 - A correspondence address;
 - A contact number and email address;
 - Details about the information requested;
- 8.3. The School will not reveal the following information in response to Subject Access Requests:
- Information that might cause serious harm to the physical or mental health of the subject or another individual
 - Information that would reveal that the child is at risk of abuse, where disclosure of that information would not be in the child's best interests;
 - Information contained in adoption and parental order records;
 - Certain information given to a court in proceedings concerning the child.
- 8.4. Subject Access Requests for all or part of the student's educational record will be provided within 15 school days.
- 8.5. If a Subject Access Request does not relate to an educational record, we will respond within 1 calendar month.
- 8.6. We reserve the right to charge for requests which are deemed to be excessive.

9. Parental Requests to see the Educational Record

- 9.1. Personal data about a child belongs to that child, and not the child's parents. This is the case even where a child is too young to understand the implications of Subject Access rights.
- 9.2. For a parent to make a subject access request, the child must either be unable to understand their rights and the implications of a Subject Access Request or have given their consent.
- 9.3. The Information Commissioner's Office, the organisation that upholds information rights, generally regards children aged 12 and above as mature enough to understand their rights and the implications of a Subject Access Request. Therefore, the vast majority of Subject Access Requests from parents of students attending our school may be granted without the express permission of the student.
- 9.4. If parents ask for paper copies of information, they will be required to pay the cost of making the copies.

10. Data Accuracy

- 10.1. Data held will be as accurate and as up to date as is reasonably possible. If a data subject informs the school of a change of circumstances his/her computer records will be updated as soon as practical.
- 10.2. Data Checking Sheets for students will be provided to data subjects so that they can check its accuracy and make any amendments as follows:
 - On entry to Year R
 - Once a year thereafter
- 10.3. Staff are required to inform the School of any change in their personal data, such as change or name, address, personal contact details, next of kin, etc.
- 10.4. Where a data subject challenges the accuracy of his/her data the school will immediately mark the record as potentially inaccurate, or "challenged". In the case of any dispute, we shall try to resolve the issue informally, but if this proves impossible, disputes will be referred to the Governing Body under the formal Complaints Procedure.

10.5. Storage of records

- Paper-based records and portable electronic devices, such as laptops and hard drives, that contain personal information, are kept under lock and key when not in use.

- Papers containing confidential personal information should not be left on office and classroom desks, on staffroom tables or pinned to noticeboards where there is general access.
- Where personal information needs to be taken off site (in paper or electronic form), staff must sign it in and out from the school office. Staff must adhere to school policies and procedures when taking data off site.
- Passwords that are at least 8 characters long, containing letters and numbers, are used to access school computers, online resources, laptops and other electronic devices.
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices. Encryption, anonymization and pseudo-anonymization will be used to protect the data.
- Staff, students or governors who store personal information on their personal devices are expected to follow the same security procedures for school-owned equipment.
- Governors are required to use school email addresses and use cloud storage for sharing information and data.
- GDPR compliant storage will be used for all online data storage.

11. Disposal of Records

- 11.1. Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely according to the School Data Destruction Policy.
- 11.2. For example, we will shred paper-based records, and override electronic files.

12. Training

- 12.1. Our staff and governors are provided with data protection training as part of their induction process and this will be refreshed annually each September.
